

## As Built Documentation

### Chapter 5.4.4 Equipment Documentations File 1

#### **ABB**

- Resistance Thermometer for temp. -200...+150 CEL  
Drawing
- Protronic 100/500/550  
Controllers for Process engineering  
Installation manual
- Protronic 100/500/550 Digitric 500  
Controllers for process engineering, controllers for industry  
Configuration and parameterization Manual
- Protronic 100/500/550 Digitric 500  
Controllers for process engineering, controllers for industry  
PROFIBUS-DP interface and module  
Manual
- Protronic 550  
Controllers for process engineering  
Supplement to the operating manual
- Control<sup>IT</sup> Process controller P100/500  
User Manual

#### **Endress + Hauser**

- Cerabar S/Deltabar S Pressure and Differential pressure transmitter  
Operating Instructions - Description of device functions
- Cerabar S PMC71, PMP71/72/75 Pressure transmitter  
Operating Instructions
- Deltabar S FMD76/77/78, PMD70/75 Differential pressure transmitter  
Operating Instructions
- Liquiphant M FTL 50, FTL 51  
Level Limit Switch
- Proline Promag 50  
Electromagnetic Flow Measuring System  
- Operating Instructions  
- Description of device functions
