

Definite Purpose Small AC Motors

Bulletin 1329M Small AC Motors, .33 through 3 HP

Product Overview

The **Bulletin 1329M** definite purpose AC motors are specifically suited for use with Allen-Bradley definite purpose variable-speed drives. Motor selection is based on the speed range your application requires. The optional brake kits are available for applications requiring holding brakes only.

Product Highlights

- Rolled steel construction
- C-Face with removable feet to accommodate a wide range of mounting configurations
- Vertical or horizontal mounting
- Motors carry multiple ratings for maximum application flexibility
- Competitive pricing
- 4 pole ratings available from stock
- Field mountable Stearns® spring-set disc brake kits are available
- Suitable for applications with power cable lengths of 300 feet

Application Highlights

- Fans and Pumps
- Material Handling

The Bulletin 1329M small AC motors are ideal for a wide range of small AC industrial applications.

A field-mountable Stearns® brake package is available on most ratings.

Bringing Together Leading Brands in Industrial Automation

Ratings	<ul style="list-style-type: none"> • 230/460 VAC • .33 through 3 HP • Speed ranges from variable torque through 10:1 constant torque 	<ul style="list-style-type: none"> • 1200, 1800 and 3600 base speeds • 40° C ambient • Altitude of 3300 feet above sea level
